The Certified Information Systems Security Professional (CISSP) is an information security certification for security analysts. It was created by the International Information Systems Security Certification Consortium (ISC). The certification was created to ensure professionals in computer security have standardized knowledge of the field. Earning a Certified Information Systems Security Professional certificate can help you have a successful career as a computer security professional.

Series includes:

- VIRTUAL Instructor Led Sessions
  - Interactive recap of the online content
  - Short quizzes
  - Review of homework questions
  - Strategies for obtaining the best answer
  - Games & Activities
